

**We are proud to be
the first RTO in
Australia to be
granted approval to
deliver this
qualification**

TAE40116 Certificate IV in Training & Assessment

Accelerated Teacher Program

There are many similarities between school education and VET requirements but there are also significant differences.

This program has been designed to provide teachers with an opportunity to obtain a Certificate IV in Training and Assessment through a combination of direct credit, RPL, delivery and assessment. Specifically developed activities have been created for experienced teachers to bridge the “gaps” that exist between current practice and the requirements of TAE40116.

Participants will develop a broad understanding of the Standards for RTO's 2015, training packages and competency based delivery and assessment. They will have the knowledge and skills to implement compliant processes for VET in schools.

Recommended Participants

The program is recommended for VET teachers, including heads of department and deputy principals. Participants must have expertise and experience in a vocational field or skill that they can teach to others. Participants must have access to:

- a VET training environment to complete post course assessments; AND
- a workplace mentor who holds TAE40110 or TAE40116 Certificate IV in Training and Assessment

Cost - \$1195 per person.

This qualification is offered as a combination of RPL, classroom and online delivery comprised of trainer led facilitation plus flexible projects, telephone support, webinar tutorials and access to the online system as required to complete projects and portfolio of evidence.

3 full days of attendance at classroom facilitation is mandatory.

Outline

A total of 10 units are required for this qualification

TAEASS401 Plan assessment activities and processes
